Artcare™ Age-Defying Protection

Artcare products feature the patented MicroChamber® technology that provides a preventative conservation protection unavailable with other matboard. A unique combination of zeolites and buffers traps and neutralizes oxidizing gasses, other pre-acidic gasses, and degradative by-products – giving Artcare boards the ability to actively protect art and photographs against attack by external pollutants and internal vices.

Museum Quality Protection

Only Artcare offers active preservation for treasured art and photographs that your customers will value forever.

	Artcare™ Archival Matboards	OTHER Conservation Matboards
Slows art and paper degradation	YES	NO
Neutralizes acid by-products	YES	NO
Protects against damaging pollutants	YES	NO
Acid-free and lignin-free	YES	YES
Fade and bleed resistant	YES*	YES*
Buffered to maintain alkaline pH	YES	YES

* Bainbridge audits every production lot to ensure conformance to industry standards for optimum fade and bleed resistance. Not all conservation matboards meet these stringent standards. Does not apply to fabric surfaces.

See the Artcare Difference

Artcare™ Archival Protection

OTHER Archival Protection

In independent lab tests, the images above were exposed to concentrated doses of nitrogen dioxide, the most common air pollutant. Both were tested in the same testing chamber for the same length of time. Neither were exposed to light during testing. The results prove the proactive performance of the Artcare Archival System.

Alphamat Technical Specifications

Furnish:

100% virgin alpha-cellulose fiber which meets the most stringent standards for stability and permanence. Tests conducted in accordance with TAPPI Method T-236 om-85 indicate the board to be free of groundwood and lignin.

pH value:

An alkaline pH of 8.9 +/- .4 indicated using TAPPI Method T-509 om-88 cold extraction on slurried pulp.

Buffer:

Alkaline reserve of 3-5% measured by ANSI IT9.2-1991 Sec 5.2.

Molecular Traps:

Contains molecular traps synthesized specifically for adsorption of air pollution gasses and degradative by-products of artwork, photographic media and wood mouldings.

Color Fastness:

Fade resistance established using a Xenon Fadometer in accordance with ASTM D3424. Alphamat colors exhibit less than 2.5 point brightness shift.

Bleed Resistance:

No bleed visible after 48-hour submersion using method FACTS EXPMMB-2000 Sec.10.03.

Resistance to Aging:

Samples tested in air circulation oven for 12 days at 100°C and for 10 days in temperature humidity chamber at 100°F and 90% relative humidity. All board components remained unchanged in appearance and strength.

Sizing & Adhesives:

Water-based alkaline adhesive with no solvents is used to adhere component parts of Alphamat boards.

Meets quality standards set by the Fine Art Trade Guild

Alphamat® Artcare™ Specialties

The most extensive assortment of distinctive surface textures designed to enhance and embellish your creative matting. 100% archival.

HERITAGE – *Elegant, rustic surface treatments add visual texture*

METALS – *Genuine archival metallic finishes, in smooth and antiqued styles*

GROTTO – The look of slate, for added dimension and personality

Additional Artcare™ Archival Products

To protect art and photography with the very highest level of conservation available, use the complete package of Artcare Archival products. With the comprehensive Artcare System, you can construct layer upon layer of active, age-defying protection to form a pollutant-proof barrier around your customers' treasured artwork.

ALPHASAG ARTCARE™

Made from 100% pure cotton pulp, featuring top to bottom cotton fiber, and subject to the most rigorous quality controls, Alphasag Artcare meets or exceeds all industry standards for paper permanence. Alphasag Artcare incorporates the patented and proven MicroChamber® technology to actively protect art and photos from airborne pollutants and acids, thereby offering a preventative conservation protection unachievable with any other rag product. Available in 47 choices of color and thickness, with 21 oversize options, Alphasag Artcare is the finest option for your most precious framing work. To review product availability, please call to request a swatched specifier #BARSP2011.

ARTCARE™ ARCHIVAL FOAMBOARD

Not all foamboard is created equal. Artcare™ Archival Foamboard is the only one that's truly archival. Other foamboards offer an archival surface, but the foam itself gives off the gasses that can fade, damage and deteriorate your customers' artwork. Artcare, with its MicroChamber® technology, absorbs and neutralizes those harmful gasses and will protect the artwork for years to come. Available in white, black, and 100% cotton rag surface, plus heat activated, 100% reversible Artcare Restore.

ACRS3240.3	3/16"	White	32" x 40"
ACRS4060.3	3/16"	White	40" x 60"

ALPHAMOUNT® ARTCARE™

Alphamount Artcare is a pure alpha cellulose mounting board that offers superior rigidity and a surface that is ideally suited for hinges and corner pockets. Incorporating the Artcare technology for added protection against external pollutants and internal vices.

White
8732 2 ply 32" x 40"
8734 4 ply 32" x 40"

ARTCARE™ ARCHIVAL CORRUGATE

Artcare Archival Corrugate is an ideal filterboard. Unlike standard corrugate, which is acidic, and other archival corrugates, whose color may not be suitable for all applications, Artcare Archival Corrugate is pure white, features 100% archival-quality components, and incorporates the Artcare technology for protection against environmental pollutant gasses and degradative by-products.

Part Code	Color	Size
8670	White	32" x 40"
8671	White	40" x 60"
